

# MOBILE HEALTH CLINIC TRAILER

## MOBILE HEALTH CLINIC TRAILER

Rico Trailers manufactures Mobile Health Clinic Trailers, These units are manufactured with the purpose of taking health care to areas in need of healthcare facilities. These mobile clinics are used in all health sectors for screening of viruses and testing for occupational health. The mobilizing of health facilities enables the governments and health care practitioners to access and aid the communities that cannot access the hospitals and clinic centres otherwise. These units can be towed by SUV's, Bakkies and Trucks.
